

The Empowerment Movement

Success Thru Personal Protection

The Empowerment Movement programs consists of Durga Pro Defense coming into organizations, businesses, corporations and associations with our Self-Defense Experts and discussing, teaching, and creating awareness about the social issues surrounding assault. We do this, in a safe, fun and informative environment.

We would love to be able to come to you, at no charge, and give a seminar. Please feel free to contact us to further discuss our program. You can help and empower your community thru action and awareness.
